

Form - 各类表格的JS处理

Form - 列表表格

通过JS添加行

```
$(function() { // $(function) html List Grid
    var args1={ //idList Gridresult
        id:"Anti-LILRB1 [EPR21007]Anti-LILRB1 antibody
[EPR21007]10ul",
        result:'{"uniqueCL":"Anti-LILRB1 [EPR21007]Anti-LILRB1
antibody [EPR21007]10ul","brandName":"Abcam","reagentName":"Anti-LILRB1
[EPR21007]/Anti-LILRB1 antibody
[EPR21007]","catNo":"ab229186","cas":"","specification":"","package":"10
ul","prodSupplierPrice":"634.20","amount":"1","inNum":"2","supplierPrice
":"634.20","status":"","ydFlag":"Y","orderline_id":"01695861-df8a-42ff-b
4ba-cfc062164c24","order_id":"0fe902fc-d142-4217-961b-6e80dc956907","sto
ckType":""}'
    };
    $("div[name='field4']").listgrid("addRow", args1);
    // 'field4' List GridID
});
```

Form - 电子表格

通过JS修改保存时的表格数据

```
function setSheetValue(fieldId,fieldValue,line){ //fieldId, fieldValue
    line0
    let jsonTextArea =
    $("div[name='deliverLine']").find('.jsonDataContainer');
    let jsonArr = jsonTextArea.val();
    if(undefined == jsonArr || jsonArr == ''){
        return;
    }
    jsonArr = JSON.parse(jsonArr);
    if(line>=jsonArr.length){
        return;
    }
    let jsonObj = jsonArr[line];
    jsonObj[fieldId] = fieldValue;
    jsonTextArea.val(JSON.stringify(jsonArr))
}
```
